

CALF BUDDY™

Securing Their Future

A dairy calf's best pal, **Calf Buddy™** has been formulated using a science based approach, with market leading products to kick scours, drive feed intake and improve growth.

Bind and neutralise pathogens such as *salmonella*, *e.coli* and *clostridial* toxins.

Reduce the incidence, duration and reduced treatment rate for scours.

Decrease morbidity & mortality.

Increase average daily gain.

Higher weaning weight.

Solid return on investment.

Easy to use and compatible with all forms of calf milk, plus **zero withholding period**.

Active Ingredients

Each ingredient has been selected for its complimentary contribution to calf health, welfare and performance.

Probiotics as live yeasts ***Saccharomyces cerevisiae* CNCM i-1077** and ***Saccharomyces boulardii* CNCM i-1079**.

Prebiotic containing beta glucan and mos from **YANG**.

Appetite stimulation, flavour and phytogenics from **Digestaron Bos**.

Recommended Feeding Rate

- 10 grams of Calf Buddy™ added **once** daily to calf's milk.
- 10 grams of Calf Buddy™ **twice** daily under challenging conditions, helps support a transition back to health.
- 10 grams of Calf Buddy™ can be top dressed to hard feed, for extra support after weaning.

* 1 level scoop holds 10 grams.
