VIANDI

VIANDI is a product based on plant extracts and essential oils.

VIANDI is used to improve the digestive comfort and feed efficiency when feeding high grain diets.

VIANDI in action:

- Optimises the energy yield of starch-rich rations,
- Participates in a better prevention against the risks of enterotoxemia in high performance animals,
- Facilitates feed transitions,
- Favours a better regularity of feed intake,
- Improves the homogeneity and quality of carcasses.

INSTRUCTION OF USE

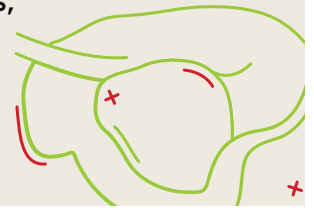

To be incorporated into finished feed at 2kg/MT or
CATTLE: 10-20g/day **SHEEP:** 1-2g/day

Packaging: powder, 25kg bag.

Keep away from light in a cool ventilated place.

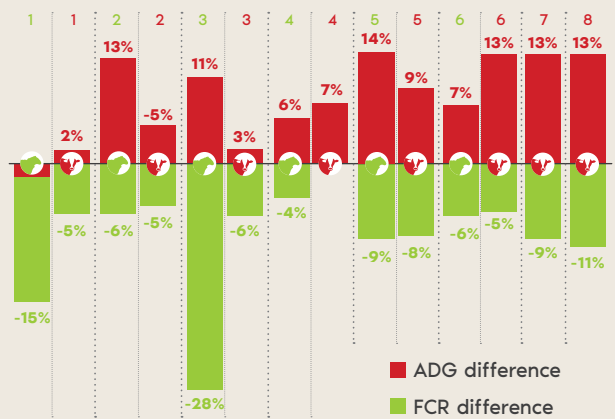

REDUCE MEDICATION RELIANCE

VIANDI is designed to help reduce reliance on ionophores, while maintaining performance expectations.

FEED EFFICIENCY

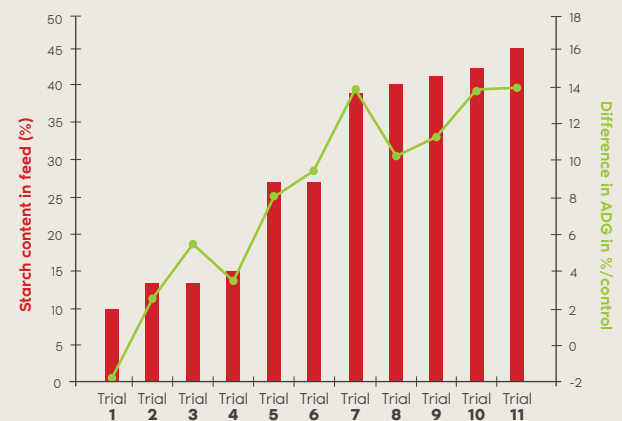

Improvement in ADG and FCR **VIANDI** (%/control)
