

# PIDOLIN® PCa

Pidolin® PCa is a patented and fully soluble source of calcium pidolate.

**Pidolate:** 86.5%

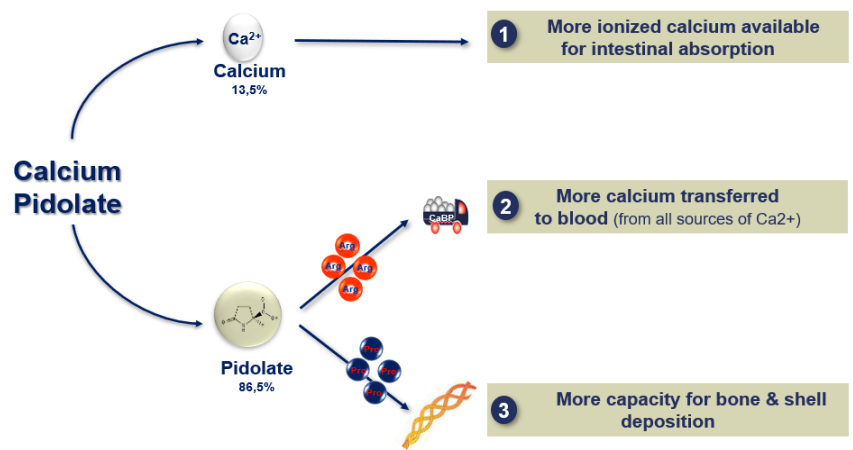

**Calcium:** 13.5%

As a result of its well-studied mode of action, **Pidolin® PCa**:

- Enhances bone structure in young animals through the synthesis and deposition of collagen.
- Plays an essential role in bone remodelling.
- Prevents calcium imbalance in high performing animals, such as during lactation and racing.
- Supports bone structure, integrity and density in mature animals.

Calcium pidolate is widely recognised and used as a prevention and support for osteoporosis in humans.

## CALCIUM PIDOLATE 3 modes of action

## Inclusion Rates:

### Horses

Foal in growth:

3 to 6 g/day

Adult horse of competition:

10 to 20 g/day

### Dogs & Cats

Animal in growth:

0.3 to 0.5 g/day

Adult animal:

0.5 to 2 g/day

Pidolin® PCa is manufactured by Dietaxion and proudly distributed in Australia by BEC Feed Solutions.

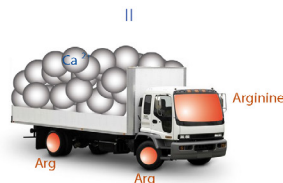

More calcium transferred to blood  
(from all Ca<sup>2+</sup> sources present)

### ARGININE

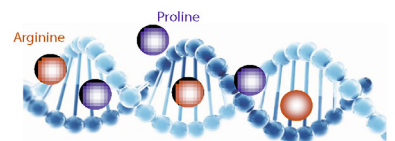

Calcium Binding Protein  
composed of 28% of Arginine

Higher synthesis of Calcium Binding Protein

Improved capacity of Ca<sup>2+</sup> deposition and mobilization

### ARGININE - PROLINE

Better constitution and regeneration of collagen:
